

JOAN WINIFRED DARBY
1926 - 2004

**“You who are truly loved
We will always love
That which was deeply felt
We will always feel
Remember, death takes all things
Save one
Love remains, for love alone
Is real”**

As a family we can think of no greater tribute to our much loved wife, mother, and grandmother Joan, than to make a donation in her name to The Cancer Council.

Joan gave so much to others during her lifetime. Paramount was her family, which she cared for with compassion, humour and love. Her favourite saying that “everything happens for a reason” helped many of us through some pretty tough times, especially during her brief illness and passing.

Joan was special in many ways. However our most enduring memories will be of when she was so ill, she never complained about being in discomfort. She continued to express her concern for the well being of her family and friends. This was the essence that was Joan, putting others before herself.

Joan’s legacy of selflessness, compassion and humour will continue to live on through her children and grandchildren.
